Behemoth Brewing Company is an Auckland local brewery with a mission to awaken a sense of fun in beer lovers. Behemoth has made over 700 unique beers brewed to bring a smile to your face.

Pint \$16

Brain Smiles | Pale Ale - New England

Mosaic and Citra Hopped. Lower in alcohol than our usual Hazy IPAs and stupidly easy to drink. Like pouring smiles on your brain

Hopped Up on Pils | Hoppy NZ Pilsner

The New Zealand Pilsner is a beautiful thing. It takes the crispness and refreshing qualities of a pilsner and adds the flavours and aromas of NZ hops into the mix; creating big aromatics like an IPA.

Lid Ripper | Hazy IPA

Our hazy, unfiltered IPA. Using a stupid amount of American hops and an english ale yeast. This beer is extremely juicy and aromatic. Rip the Lid off one!
